Guiding Development • Building Community

Planning and Development Services
St. Clements • St. Andrews
East St. Paul • West St. Paul • Dunnottar

All fees and information are subject to change without notice, and should be verified by the Red River Planning District Office.

Is a building permit required to place or construct a pool or hot-tub?

YES. Whether it is a hot-tub or the pool is seasonal, inground or above ground, if the depth is greater than 600 mm (2 feet), a Pool Permit is required.

What is required to apply for a Pool Permit?

- Site Plan which shows all property lines and dimensions with setbacks to the proposed pool from all sides. As well, all existing structures, with setbacks to the nearest existing structure;
- Location of pool equipment on the property;
- Plans of the pool including diameter, depth and how the pool will be enclosed to comply with Municipal By-law requirements as required.
- Current Status of Title (dated within 30 days of application date) - Inground Pool only
- Residential Plan Review Fee

To determine required setbacks and enclosure requirements, please provide us with a tax roll number and/or a proper legal description and the municipality or city in which you are building in order for our office to determine your zoning.

A legal survey, or building location certificate, may be requested, and will provide you with your exact lot size.

Is a Swim Spa considered a Pool or Hot Tub?

A swim spa is considered a pool as the use provides both a swim and exercise area.

What type of fence will I require?

Outdoor pools, may be required to be enclosed with a fence or other suitable barrier constructed in accordance with each respective municipal by-law requirement. (Minimum 5 ft. high barrier with all openings to be self-closing and lockable)

If enclosure requirements apply, pools must be completely enclosed by a vertical board fence, with no vertical or horizontal supports that would facilitate climbing, or a chain link fence not less than No. 12 gauge galvanized steel wire, constructed or erected in accordance with the following:

- Fences shall have a minimum height of 5.0 feet (1.52m), including gates.
- There shall be no openings other than an entry to a building or a gate and it shall be constructed so as to prevent a child from crawling under either the fence or gate.
- Gates must be self-closing and equipped with a lockable latch.

A fence may not be required for a hot-tub, as long as the hot-tub is equipped with a lockable cover, as per Municipal By-law requirements.

Enclosure Required?

Municipality	Pool	Hot Tub
RM of West St. Paul	YES	NO
RM of East St. Paul	YES	NO
RM of St. Andrews	NO	NO
RM of St. Clements	NO	NO
Village of Dunnottar	YES	YES
