

NOTICE OF PUBLIC HEARING

ZONING BY-LAW AMENDMENT APPLICATION

RM of St. Andrews

Under authority of *The Planning Act*, the municipal Council will hold a public hearing at the time and location listed below to hear from those who wish to speak in support or objection, or to ask questions. For more info on how to register for the public hearing please contact the municipality at 204-7382264

**Tuesday
December 9th, 2025
5:30 PM**

**Council Chambers,
500 Railway Avenue,
RM of St. Andrews, MB**

Note: property owners are responsible for notifying "tenants"

APPLICATION INFORMATION

Application File: ZBA - BL 4423

Applicant: Leonard Naayer and Agnes Loutit

Property Location: No address portion of RL 34;
8 McLennan Road, RM of St. Andrews.
Roll # 13300, 13400

Application Purpose:

To rezone the subject property in order to subdivide the land into total 21 lots for the future single family residential development and sale properties.

Current Zoning	Zoning Proposed by Applicant
"RR" – Rural Residential zone	"RA" – Suburban Residential zone

A copy of the above-noted proposal and supporting material is available on the Red River Planning District website at <https://www.redriverplanning.com/hearings.php> or by contacting the Red River Planning District in person during normal business hours Monday to Friday at 2978 Birds Hill Road, East St. Paul, by phone at 204 669-8880, or by email at info@rrpd.ca

Date: November 21st, 2025

File: **BL 4423**
Zoning By-law Amendment
(Public Hearing Report)

To: Council
R.M. of St. Andrews

From: Valentina Esman,
Community Planner,
Red River Planning District

Properties:

Civic Address	Certificate of Title	Legal Description*	Assessment Roll No.
1)No address portion of roll 34, St. Andrews	CT: 3338870/1	ALL THAT PORTION OF RL 34 PARISH OF SAINT ANDREWS BOUNDED AS FOLLOWS:ON THE NORTH BY THE SOUTHERN LIMIT OF PUBLIC ROAD PLAN 4459 WLTO: ON THE SOUTH BY SOUTHERN LIMIT OF SAID RL;ON THE WEST BY THE EASTERN LIMIT OF PUBLIC DRAIN PLAN 9389 WLTO;AND ON THE EAST BY THE WESTERN LIMIT OF THE RIVER ROAD PLAN 3404 WLTO,EXC OUT OF THE LAND ABOVE DESCRIBED FIRSTLY: ALL THAT PORTION WITCH LIES BETWEEN TWO LINES DRAWN SLY AT THE RIGHT ANGLES TO THE SOUTHERN LIMIT OF SAID PLAN 4459 WLTO FROM POINTS IN	13300

		THE SAME DISTANT WESTERLY THEREON 433 FEET AND RESPECTIVELY FROM THE SAID WESTERN LIMIT AND SECONDLY: PUBLIC ROAD PLAN 30081 WLTO ALL OF THE LAND ABOVE DESCRIBED BEING SUBJECT TO THE RESERVATIONS AND PROVISIOES CONTAINED IN THE CROWN LANDS ACT	
2)8 McLennan Road, St. Andrews	CT: 3338871/1	ALL THAT PORTION OF RL 34 PARISH OF ST. ANDREWS LYING SOUTH OF SOUTHERN LIMIT OF PUBLIC ROAD PLAN 4459 WLTO WHICH LIES BETWEEN 2 LINES DRAWN SLY AT RIGHT ANGLES TO SOUTHERN LIMIT OF SAID ROAD FROM POINTS IN SAME DISTANT WLY THEREON 433 FEET AND 563 FEET RESPECTIVELY FROM WESTERN LIMIT OF RIVER ROAD SHOWN ON PLAN NO. 3404 WLTO SUBJECT TO THE RESERVATIONS AND PROVISIOES CONTAINED IN THE CROWN LAND ACT	13400

Issue:

To amend R.M. of St. Andrews Zoning By-Law N. 4066 by rezoning the subject property from “RR” Rural Residential Zone to “RA” Suburban Residential Zone in order to subdivide the land into total 21 lots for the future single family residential development and sale properties.

SECTION 1: INTRODUCTION, TIMELINE AND BACKGROUND INFORMATION

As per the letter of intent the applicant intends to rezone the subject properties from “RR” Rural Residential Zone to “RA” Suburban Residential Zone in order Zone in order to subdivide the land into total 21 lots for the future single family residential development and sale properties.

It should be noted that the applicant has submitted an associated Subdivision application (File No. S25-3120) and this application has been circulated to government agencies for review and commenting.

This By-Law amendment application was brought forward to the Council on October 14th , 2025, for First Reading consideration. Upon receiving First Reading, the By-Law amendment was circulated for comments to provincial departments/agencies on October 20th , 2025. The By-Law amendment was sent to be advertised within the Selkirk Record newspaper on November 13th, 2025 and November 20th ,2025 publication dates.

SECITON 2: PLANNING ANALYSIS, DEVELOPMENT PLAN COMPATIBILIY AND SECONDARY PLANNING COMPATIBILITY

2.1 Subject Property and Surrounding Area

The total area of the currently vacant land to be rezoned is roughly 11.28 acres on titles CT 3338871/1 and 3338870/1. The area surrounding the proposed amendment is as follows:

- To the North – McLennan Rd, then 0.75-1 ac lots zoned “RR” Rural Residential
- To the South – 14.4 ac lot zoned “RR” Rural Residential
- To the East – River Road, then 1.38-2.67 ac lots zoned “RR” Rural Residential
- To the West – Undeveloped ROW, then 0.97 ac lot zoned “RR” Rural Residential

2.2 Compatibility with the Development Plan By-Law 272/19

The Planning Act (section 68) outlines that zoning by-laws are to be “*generally consistent with the development plan by-law and any secondary plan by-law in effect in the municipality*”. The current development, The Red River Planning District Development Plan (By-law No. 272/19) is reviewed to determine if the proposed “RA” Suburban Residential Zone rezoning of the subject properties is consistent with its policy direction. It should be noted that not all of the policies in the Development Plan are relevant to the subject lands at the zoning by-law amendment application stage.

The land proposed for rezoning is currently designated as “GD” - General Development in the Red River Planning District’s Development Plan By-Law 272/19.

“GD”- General development is a designation for areas where significant residential development exists or is planned, and where the extension of centralized wastewater services is planned. Neighborhood commercial development that offers local residents with goods and services, small retail and food service establishments, and limited higher density residences may be appropriate at major nodes or along major transportation corridors (RRPD Development Plan, pg. 39).

“*...Significant residential development*” already exists North, West and East to the proposed rezoning land. As for section 4.6.2 of the DP: “*.... development on those lots should be configured in a manner that can facilitate the future connection to municipal piped water and / or wastewater services, and the potential for infill development (e.g. subdivision) in order to make connection to those services an economically viable option.*” Accordingly to RM there is existing low-pressure sewer system to the subject land as well as road approach for future water connection. The road connectivity issue will be addressed though an associated subdivision application conditions.

The proposed zoning by-law amendment is generally consistent with the objectives and policies of the Development Plan at the zoning by-law amendment stage. Furthermore, the proposed rezoning is compatible with the adjoining land uses in Residential zone area and no potential land use conflicts are identified at this point.

2.3 Compatibility with Secondary Plans

There are currently no adopted Secondary Plans that impact the rezoning of the subject properties.

2.4 Further Required Approvals

Should Council approve this Zoning By-Law Amendment application it should also be noted that the applicant has submitted an associated Subdivision application (File No. S25-3120) to address the future land development.

If Council wishes to address development and infrastructure standards to ensure that any proposed development complies with applicable policies of the Development Plan and other applicable municipal policies, they could require a development agreement as part of the rezoning or subdivision.

SECTION 3: CIRCULATION FOR COMMENTS

This Zoning By-law amendment application has been circulated for comments as per *The Planning Act* to Provincial Departments and adjacent municipalities with instructions to forward any comments to the Red River Planning District prior to the public hearing, and, that no response by the date of the public hearing will be interpreted as having no concerns. The application has been circulated in order to afford Provincial Departments an opportunity to ensure that the application conforms to provincial policies, and to afford adjacent municipalities an opportunity to comment on any negative impacts that the application may have on their municipality. To date, our office has received comments from the following departments which are summarized as follows in TABLE 1 – AGENCY REMARKS. Please note: complete copies of the comments are attached (SEE APPENDIX B).

TABLE 1– AGENCY REMARKS

PROVINCIAL DEPARTMENT MUNICIPALITY OR AGENCY	COMMENTS
Manitoba Infrastructure Highway Design Branch	No concerns with the ZBL (see full comment attached to Appendix B)
Manitoba Infrastructure Water Management, Planning and Standards	We have no concerns with this file.
Manitoba Conservation and Climate ,Environmental Compliance and Enforcement	Has no concerns at this time.
Water and Drainage Control	The responsibility lies with the local government or planning district to ensure that all bylaws, zoning bylaws, development plans, and amendments thereof are in compliance with the Water Rights Act, the Water Rights Regulation, and the policies, procedures and requirements of the Drainage and Water Rights Licensing Branch – Drainage Section. Water Control Works associated with any future development require

	<p>authorization under the Water Rights Act prior to construction or installation.</p> <p>Note #1 - Any filling or draining of regulated wetlands (Class 3, 4 or 5) constitutes the construction of water control works.</p> <p>Note #2 – Class 6, 7 and Unimproved organic soils (ag capability) cannot be drained.</p>
Historic Resources Branch Manitoba Sport, Culture, Heritage and Tourism	Heritage Resource Impact Assessment (HRIA) must be conducted (see full comment attached to Appendix B)
Manitoba Agriculture and Resource Development Agri-Ecosystems and Land Management Section	No concerns from an agricultural perspective (see full comment attached to Appendix B)
Mines Branch	No concerns
Lands and Planning Branch Natural Resource Stewardship Division Department of Natural Resources and Indigenous Futures	The Land Branch has no comments.
Manitoba Municipal Relations Community Planning Services	No concerns with the rezoning. (see full comment attached to Appendix B)
R.M. of East St. Paul	Zoning By-law Amendment BL 4423, 2025 does not affect the RM of East St. Paul, therefore I have no comments.
MB Hydro and Gas	No concerns with the rezoning. (see full comment attached to Appendix B)
BellMTS	No comments received

Please note: a FULL set of comments are attached to the package report for Council's review and consideration.

SECTION 4 – RECOMMENDATIONS:

This Zoning By-Law amendment generally meets the current Development Plan. The Red River Planning District Office **recommends** the Council give **Second Reading** to By-law No. BL-11-2025. Should council wish to address development and infrastructure standards to ensure that any proposed development complies with applicable policies of the Development Plan and municipal policies, the RRPD recommends entering into a development agreement as condition of the subject rezoning application.

Please note that if Council does decide to approve the application and if there are the minimum required amount of objections as per *the Planning Act*, Council may not give Third Reading to the by-law until the required time-frame has allowed for second objections to be confirmed, or until such time as an appeal hearing has denied the objection(s).

For the purposes of an amendment to a zoning by-law, objections must be received from at least 300 eligible persons in order to be considered sufficient to trigger an Appeal Hearing.

APPENDIX A:

Subject: RM of St. Andrews ZBA BL 4423

Good day to all,

On October 14th, 2025, the RM of St. Andrews Council gave First Reading to Zoning By-law Amendment BL 4423, 2025.

This Zoning By-law Amendment proposes to amend the RM of St. Andrews Zoning By-law No. BL 4066 by rezoning the subject property from “RR” *Rural Residential* to “RA” *Suburban Residential Zone* to subdivide the land into total 21 lots for the future single family residential development and sale properties.

Attached to this email is a copy of the First Reading Report, First Reading Council resolution, and the Zoning By-law Amendment By-law.

A Public Hearing with the municipal Council is tentatively planned for **December 9th, 2025, at 5:30 PM** (see Public Hearing Notice attached).

Should you have any comments regarding this Zoning By-law Amendment, please reply to this email and CC selkirkCRP@gov.mb.ca by **November 17th, 2025**. No response by this date will be interpreted as your office having no concerns with this application. Please circulate to anyone in your office that may have comments regarding this file.

If you require any additional information, please feel free to contact me. Thank you.

Have a great day,

Valentina Esman

Hi Valentina

We have reviewed the below correspondence regarding the provision for a road allowance south to the adjacent property. We understand the RM owns ROW identified as green on the below sketch. If this ROW can be developed into a public road southwards to provide connectivity/frontage along all properties south of the proposed residential development, this could be an option. However, we note that the ROW extends southwards and then “doglegs” eastward almost connecting to River Road (separated by roll number 11859). We note that we would not approve a public road connection onto River Road at this location.

Hi Jeff,

I hope the applicant sent this email to you, with another option for connectivity solution for the properties south to the proposed subdivision (please see the RMs comments on it).

The strip of the mud road (see attached image) owned by the RM from the west side of the proposed subdivision and rezoning (Roll # 13300, 13400) connecting Lots south to the proposed subdivision and provides road access to all of them including the subject land too.

I would appreciate a lot if you can check it this option as alternative solution to have,

Thank you in advance,

Have a great day,

Subject: RE: comments sub file 25-3120

Hi Valentina,

Yes, I agree - While I acknowledge MTI's concern with future connectivity to the south and agree with their assessment that the Martin Street ROW could be extended as part of this development, there is also another alternative: the existing road allowance (mud road) that intersects with Hanssen Drive between McLennan Road and Westman Drive.

The Municipality owns this ROW, which is used occasionally by adjacent landowners on McLennan Road, Westman Drive and Geurts Cove to access the rear of their properties. Should there be interest in developing Roll Nos. 12650.000 and 12640.000, this ROW could also provide access, though it would require infrastructure upgrades (road base and surfacing) as well as a crossing over the McLennan Drain.

The Municipality supports either solution. However, if the applicant is required to dedicate a 66' ROW connecting to Martin Street, our understanding is that the applicant of S25-3120 would not be required to construct the stub road and would instead dedicate the undeveloped ROW to the Municipality for future connectivity.

Hi Braeden,

We have got the objection from the MTI Highways for this subdivision application for any new connection to the River Road and a possible future solution as a continuation of the Martin St.
As you can see on attached print screen, there is another option for the road connectivity solution in my opinion here too, I would appreciate you feedback if it is a legit option for the applicant to consider
And to suggest maybe as a second/another possible solution for the road connectivity instead of cutting his property in half by the Martin St. dead-end proposal.

I would appreciate you opinion about this and any other options for sure too,

Hi Valentina

We have reviewed the RM of St. Andrews ZBL amendment 4423 which is part of subdivision file 25-3120 and have no concerns with the ZBL. However, we refer to our comments for subdivision file 25-3120 including the provision for public road connection to the adjacent lands to the south.

Please email or call if you have any questions regarding our comments.

Thank You

Jeff DiNella

Subject: RM of St. Andrews ZBA BL 4423

Good day to all,

On October 14th, 2025, the RM of St. Andrews Council gave First Reading to Zoning By-law Amendment BL 4423, 2025.

This Zoning By-law Amendment proposes to amend the RM of St. Andrews Zoning By-law No. BL 4066 by rezoning the subject property from “RR” *Rural Residential* to “RA” *Suburban Residential Zone* to subdivide the land into total 21 lots for the future single family residential development and sale properties.

Attached to this email is a copy of the First Reading Report, First Reading Council resolution, and the Zoning By-law Amendment By-law.

A Public Hearing with the municipal Council is tentatively planned for **December 9th, 2025, at 5:30 PM** (see Public Hearing Notice attached).

Should you have any comments regarding this Zoning By-law Amendment, please reply to this email and CC selkirkCRP@gov.mb.ca by **November 17th, 2025**. No response by this date will be interpreted as your office having no concerns with this application. Please circulate to anyone in your office that may have comments regarding this file.

If you require any additional information, please feel free to contact me. Thank you.

Have a great day,

[RM Comments S25-3120.pdf](#) 

Good Afternoon Valentina,

The RM understands that ZBA BL 4423 is a joint application with S25-3120, to which we have previously provided our conditions of approval (attached again for reference).

Should the applicant decide to withdraw the subdivision application (for any reason) but continue to pursue the ZBA, the RM will require condition 2 of the attached (development agreement).

Thank you!

Hi Valentina,

I have reviewed this proposed Zoning By-law Amendment for the RM of St. Andrews on behalf of Manitoba Agriculture. The by-law proposes to rezone the subject property from "RR" Rural Residential to "RA" Suburban Residential Zone. The proposal appears to be consistent with the "GD" - General Development designation of this area under the Red River Planning District's Development Plan. No concerns from an agricultural perspective.

Regards,
Sheila

Good morning Valentina,

I have reviewed Rural Municipality of St. Andrews Zoning By-law Amendment No. 4423 on behalf of the Community Planning Services branch of Manitoba Municipal and Northern Relations. By-law No. 4423 proposes to rezone approximately 13 acres from "RR" Rural Residential Zone to "RA" Suburban Residential Zone to accommodate a 21-lot residential subdivision. The land subject to rezoning is designated 'General Development Area' pursuant to the Red River Planning District Development Plan By-law No. 272/19. The proposed "RA" Suburban Residential Zone is generally consistent with the designation and as such, our office has no concerns with the rezoning.

Thank you for the opportunity to comment.

Best,

Subject: RM of St. Andrews ZBA BL 4423

Good day to all,

On October 14th , 2025, the RM of St. Andrews Council gave First Reading to Zoning By-law Amendment BL 4423, 2025.

This Zoning By-law Amendment proposes to amend the RM of St. Andrews Zoning By-law No. BL 4066 by rezoning the subject property from “RR” *Rural Residential* to “RA” *Suburban Residential Zone* to subdivide the land into total 21 lots for the future single family residential development and sale properties.

Attached to this email is a copy of the First Reading Report, First Reading Council resolution, and the Zoning By-law Amendment By-law.

A Public Hearing with the municipal Council is tentatively planned for **December 9th, 2025, at 5:30 PM** (see Public Hearing Notice attached).

Should you have any comments regarding this Zoning By-law Amendment, please reply to this email and CC selkirkCRP@gov.mb.ca by **November 17th , 2025**. No response by this date will be interpreted as your office having no concerns with this application. Please circulate to anyone in your office that may have comments regarding this file.

If you require any additional information, please feel free to contact me. Thank you.

Have a great day,

Valentina Esman

SUBJECT: File No.: ZBA BL 4423
AAS File: AAS-25-24573
Proposal to Rezone land located at RL 0034-AD in the Parish of St. Andrews
8 McLennan Road RM of St. Andrews
Applicants: Leonard Naayer and Agnes Loutit

Concerns

Further to your e-mail regarding the above-noted application, the Manitoba Historic Resources Branch (HRB) has examined the location in conjunction with Branch records for areas of potential concern. Notably, the project is within a kilometer of the Red River and numerous known archaeological sites historic cart trails and parish buildings. These factors, although not exclusive to the analysis, indicate a reason to believe that any future planned ground disturbance, activity, and/or development within the area has the potential to impact heritage resources; therefore, the Historic Resources Branch has concerns.

Legislation

Under Section 12(2) of [The Heritage Resources Act](#) (the Act), if there is reason to believe that heritage resources or human remains upon or within or beneath lands are likely to be damaged or destroyed by any work, activity, development or project, then the Minister may require a proponent to apply for a heritage permit and conduct at his/her own expense, a heritage resource impact assessment (HRIA) and mitigation, prior to the project's start. As per sections 46 and 51 of the Act, there is an obligation to report any heritage resources and a prohibition on destruction, damage or alteration of said resources.

A Heritage Resource Impact Assessment (HRIA) is an assessment showing the impact that proposed work is likely to have upon heritage resources or human remains. HRIAs must be conducted by a qualified archaeological consultant under a heritage permit. Please find attached a flow chart outlining the general process of an HRIA.

HRIA Expectations

The Branch will work with the proponent/landowners and its consultant to draw up terms of reference for this project. Please allow for HRIA timelines in your planning as HRIAs are conducted in snow and frost-free conditions. Any exceptions require planning and consultation with the HRB.

Please find attached an archaeological consultants' list for reference. Due diligence should be conducted in order to assess quotes, services, and timelines.

If you have any questions, please contact as above for proper assignment and queueing.

AECOM is built to deliver a better world. We design, build, finance, maintain and operate infrastructure assets for governments, businesses and organizations in more than 150 countries. As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital.

The AECOM Cultural Resources Department, formed in 2007, provides archaeological, built heritage and cultural heritage landscape services to a wide variety of public and private sector clients across Canada. We have a multidisciplinary Cultural Heritage team of dedicated researchers, archaeologists, cultural heritage specialists, and heritage planners that offer a range of services. AECOM's Cultural Heritage team has the right mix of skill sets, experience, relationships, and understanding of cultural resource management and working with multiple stakeholders (notably Indigenous communities). AECOM provides a full range of cultural resource management services including:

- Heritage Resource Impact Assessment
- Desktop Heritage Resource Overview
- Heritage Resource Protection Plans
- Modelling and Constraints Mapping
- Historical and Archival Research
- Built Heritage
- Traditional Land and Resource Studies
- Indigenous Engagement

Agassiz C.R.S. is a Manitoba based cultural heritage service company formed in 2015 to provide projects, developers, individuals, and First Nations of Manitoba with comprehensive and professional archaeological, anthropological and historic resource services. We have experience working on sites throughout Canada including Manitoba, Saskatchewan, and Ontario, as well as international experience. We can provide engagement with the public through professionally led public archaeological excavations and programming.

We offer First Nations consultation and engagement. We are interested in providing consultation to First Nations on archeology and heritage concerns relating to land development. Agassiz is currently working with Peguis First Nation on several projects.

Our services include:

Heritage assessments:

Project and regional mapping via GIS software and drone software,
HRIA (historic resource impact assessment),
HRO (historic resource overview),
Archaeological mitigation, monitoring and post impact assessment,

Research:

Archival research,
Historical research,
Site and region specific research,

Consultation:

First Nations engagement,
TLU (traditional land use),
ATK (Aboriginal traditional knowledge),
Public consultation.

We have experience in managing projects that range from one-day, two-person site surveys up to large regional studies and multi-year archaeological excavations employing a large work force. We also have considerable experience in coordinating archaeological research with industry requirements.

Atlheritage has built a strong and respected reputation with helping our client's navigate the Heritage regulatory approval process. We understand and appreciate developments, which is why we work closely with our clients to ensure regulatory requirements (i.e., Heritage Resources Impact Assessments) are professionally and efficiently completed to ensure Heritage Clearance is achieved well in advance of construction schedules. **HRIAs are our expertise.** Most importantly, we pride ourselves in our commitment and customer service we provide to our clients while working closely with the Historic Resources Branch.

Atlheritage consists of a group of respected archaeologists with extensive heritage assessment experience across the Prairies. Our areas of expertise include:

- Heritage Desktop Studies
- Heritage Resource Reviews and Project submissions to the Historic Resources Branch.
- Heritage Resources Impact Assessments (HRIA)
- Archaeological Monitoring and Post-Impact Assessments
- Heritage Resources Impact Assessment – Mitigation (HRIA-Mitigation)
- Traditional Land Use Studies (TLU)
- Traditional Knowledge Studies (TEK)
- Cemetery Management (mapping marked and unmarked graves)
- Ground Penetrating Radar (GPR)

Atlheritage is a division of ATL Group of Companies Limited (ATL Group). ATL Group provides niche consulting services specializing in Heritage/Archaeology (Atlheritage Services), engagement, facilitation, and communications (Atlwest Communications), and GIS and AutoCad mapping services (Prairie Mapping Industries).

Destiny McPeck – Senior Archaeologist
destiny@bigmuddyheritage.com

Big Muddy Heritage Consulting Ltd. (BMHC) is an archaeological, heritage, and historic resources consulting firm based in Saskatchewan, and offering services throughout western Canada. BMHC works with industrial proponents, government agencies, and Indigenous communities to meet requirements of Provincial, Territorial, and Federal regulations regarding the identification, assessment, protection, and investigation of heritage resources including archaeological and historic sites. At Big Muddy Heritage Consulting, we have the expertise and means to complete heritage resources projects throughout Manitoba, Saskatchewan, Alberta, Northwest Territories, and Yukon. We do this by providing comprehensive consulting services focusing on heritage and archaeological impact assessments that are tailored to the unique needs of each client.

In Manitoba, we offer several services to help private, government, and Indigenous development proponents to meet the requirements of The Heritage Resources Act and the guidelines for Heritage Resources Impact Assessments and other applicable guidelines and legislation. These services include Heritage Resources Overviews (HRO), consultation with the Heritage Resources Branch (HRB) on Terms of Reference for HRIA work, Heritage Resources Impact Assessments, Heritage Resources Impact Mitigations, Indigenous Engagement and Traditional Use Studies, Construction Monitoring, and Expert Testimony.

Our President and Senior Project Archaeologist, Dr. Dan Meyer (RPA 17246), has over 30 years of experience in heritage resources management. He has directed and participated in numerous Heritage Resource Studies or Archaeological Impact Assessments as a Project Archaeologist throughout the northern Plains, Boreal Forest, Sub-Arctic, and Eastern Slopes since 2001, in addition to his other experience across North America including Alberta, British Columbia, Manitoba, Northwest Territories, Saskatchewan, Chiapas (Mexico), New Mexico, Colorado, Wyoming, North Dakota, Vermont, and Yellowstone National Park. In Manitoba, Dan has undertaken HRIA work on behalf of clients such as Manitoba Hydro, Parks Canada, Shared Health Manitoba (with Architecture49). Dan has expertise in directing regional surveys and large-scale excavations of complex, multi-component sites, has conducted extensive surveys for forestry and mining clients, has produced predictive models, and authored Heritage Resources Protection Plans. Dan has supervised over 100 field assessment projects that have recorded over one thousand five hundred archaeological sites in the last twenty-three years. Many of the projects with which he has been involved have had Indigenous consultation or traditional use components. Dr. Meyer is assisted in HRIA work by Senior Archaeologist Destiny McPeck, whose 8-year career has seen involvement in heritage projects for the oil and gas industry, forestry, and mineral exploration throughout Manitoba, Saskatchewan, Alberta, Northwest Territories, British Columbia, and Ontario. Destiny worked on Enbridge's Line 5 Replacement project in Manitoba. Destiny has strong historical family ties to the Red River Métis community.

Canada North Environmental Services (CanNorth) is a multidisciplinary and comprehensive heritage, engagement, and environmental consulting company. We are 100% First Nations owned. We offer specialized and expert services that are geared towards helping clients achieve regulatory compliance under heritage and environmental legislation. We have the capacity to handle both large and small projects.

Since 1997, CanNorth has provided high quality environmental and heritage services to a diversity of clients for a wide range of project types. Our experienced, interdisciplinary team offers the technical skills and knowledge to protect the environment, satisfy regulatory requirements, benefits our clients, and support local communities.

Heritage services are provided through CanNorth's Heritage Division. We provide to our clients a wide range of services, including:

- Heritage Resource Impact Assessment and Mitigation (HRIA, HRIA-M),
- Archaeological monitoring and post-impact assessments,
- Project referrals,
- Archaeological consulting,
- Traditional Land Use studies (TLU),
- Archival and historical research, and
- Indigenous engagement.

Our heritage programs are delivered with the same high-quality commitment to service and excellence that have made CanNorth a proven leader in environmental programs and consulting services.

Circle CRM Group is a heritage resource consulting company with offices in Calgary and Edmonton, Alberta, as well as a seasonal office in Williams Lake, BC. We are professional archaeologists who share a common mission: to protect and promote understanding of heritage resources. We believe in a balance of practical growth and development while preserving our cultural resources for future generations. Through great teamwork and collaboration, we deliver consistent, quality heritage resource services that exceed our client's expectations.

In its 25-year span, Circle CRM Group has completed archaeological assessments in BC, Alberta, Saskatchewan, Manitoba, the Yukon, and the Northwest Territories. Circle's managers and senior permit holders have extensive experience in all matters relating to heritage resources; each have over 20 years of archaeological experience, the majority of which are as a permit-holding archaeologists in western Canada.

Circle CRM Group has extensive experience in providing the following list of services across western Canada.

- Heritage Resources Impact Assessments (HRIAs)
- Heritage Resources Impact Mitigations (HRIMs)
- Heritage Resource Overviews (Desktop Assessments)
- Construction Monitoring and Post-Impact Assessments
- GIS Services
- Palaeontological services
- Traditional Land Use
- Traditional Ecological Knowledge

Circle CRM Group is also committed to an Indigenous Inclusion Strategy and Work Plan that strives to support the rising presence of Indigenous Peoples in the field of archaeology and cultural resource management in western Canada. Our vision is to create and nurture an inclusive space for open dialogue and collaboration with Indigenous Peoples and communities throughout all phases of archaeological services provided to our clients, wherever possible.

Ember Archaeology – a Division of Tree Time Services Inc.

Email : mcoleman@emberarchaeology.ca

Ember Archaeology, a division of Tree Time Services Inc (TTSI), is an Alberta based cultural heritage service company. Started in 2008 (re-branded as Ember Archaeology in April 2021), we provide historic resource management planning and impact assessment services to help our clients manage their impact on heritage resources. We also provide advice, assessments, surveys, reclamation and other consulting services to all sectors: Forestry, Oil and Gas, Aggregate Companies, Urban and Rural Municipalities, Education and Recreation based Non-Profit Organizations, Infrastructure, Transportation, and Utility Companies.

We have developed a strong reputation in our field based on using scientifically demonstrable methodology. Our archaeology team has grown to include eight permanent staff, all of whom are eligible to hold archaeological research permits in multiple provinces. Our principal business is annual historical resource management programs for the forest industry. We currently serve clients with operations from Sundre to Fort McMurray. This specialization has led Ember Archaeology to invest in the identification and development of best practices for archaeological survey. In addition to forestry we conduct Impact Assessments and Impact Mitigations for gravel pits, recreational developments, transmission lines, and highway projects. Ember is also capable of completing Ground Penetrating Radar projects (GPR).

Our services include:

- Historical Resources Overview (background research, including traditional land use)
- Development screening
- Heritage Resources Impact Assessments
- Archaeological Mitigation, Monitoring, and Post-Impact Assessments
- Applications of Geographic Information Systems (GIS)
- pXRF sourcing
- Community engagement (information sessions, written materials, public excavations)
- Ground Penetrating Radar (GPR)

Public outreach is highly valued at Ember Archaeology. We work to engage all ages and communities through public education, social media, non-technical reports, and First Nations engagement. We have also undertaken a range of community archaeology projects and services including:

- Site / Excavation Tours – a chance for the community to see archaeology in action
- Archaeology Roadshows – allows hands-on experience with the type of artifact reproductions and activities; communication of archaeological assessments completed near the community.
- School visits – students become an archaeologist for a day by participating in an interactive presentation and then try to classify, date, and interpret an archaeological using what they learned.

Miriam Reichel-Bodner – Senior Project Palaeontologist

Miriam@lifewaysofcanada.com

Lifeways of Canada Limited (Lifeways) is a private company specializing in archaeological, palaeontological, and heritage consulting. Incorporated in 1972, we are proud to stand as one of the longest operating heritage resources consulting and contracting companies in western Canada, providing services to government, private industries, and Indigenous communities in western and northern Canada.

We provide a complete spectrum of heritage resources work to ensure that all *Heritage Resources Act* clearances are granted and in place for our clients in a timely manner. These include:

- Heritage Resources Overviews (HRO) – submissions to the Historic Resources Branch (HRB) for project guidance, approvals, and/or requirements;
- Liaison to acquire Terms of Reference from HRB;
- Heritage Resources Impact Assessments (HRIA)- field studies meant to assess in detail a development area;
- Heritage Resources Impact Mitigations (HRIM) – the excavation and mitigation of all sites needing clearance that cannot be avoided by the developer;
- Construction monitoring – archaeological and palaeontological monitoring of construction activities to mitigate impact to Heritage Resources;
- Palaeontological Overviews, HRIAs, and Monitoring;
- Development of Heritage Resources Protection Plans;
- Archival Research;
- First Nations Consultation, Indigenous Engagement, and Traditional Use Studies;
- Expert Testimony at hearings; and
- Public archaeology programs, tours, and lectures.

Lifeways' Experienced Staff

We are a private company with a sizeable, full-time, permanent team who work efficiently together and are able to adapt quickly to Project-specific needs. Lifeways provides field supervision and labour and all required follow-up lab, mapping, and reporting tasks for projects of all levels. We are proud of our large and full-time permanent staff with a very low rate of turnover, who have the experience and clear understanding of Provincial Regulations to execute all of our projects efficiently. Four of our Senior Project Archaeologists are partners in the company and have a vested interest in providing the highest level of service to our clients. Currently we have six Project Archaeologists and one Project Palaeontologist (with M.A.s or Ph.Ds.) who are permitted to conduct fieldwork in Manitoba, Alberta, British Columbia, Saskatchewan, Northwest Territories, and Yukon. Eight Senior and Junior Archaeologists (with B.A.s, B.Sc.s., or M.A.s) work as field assistants, lab technicians, draftspersons, GIS specialists, and researchers for the company. Collectively we have over 230 years of experience in heritage resources. We provide expertise in lithic and faunal analysis, Precontact and Historic Period sites, fossil processing, archaeological and palaeontological potential modeling, GIS applications and archival research.

NORTH ROOTS RESEARCH

Website : www.northrootsresearch.ca

North Roots Research is an independently owned, Manitoba-based company that provides high-quality, practical and cost-effective heritage solutions for your development needs. Our professional archaeologists offer a full range of services involving archaeological, historical and Indigenous research across Manitoba, Saskatchewan and northern Ontario.

Our considerable experience has involved all scales of projects for a variety of clients including: private landowners, large and small-scale developers, governmental agencies and Indigenous communities and organizations. We collaborate with our clients to tailor services that preserve and manage heritage and cultural resources while facilitating sustainable and progressive development. North Roots Research delivers timely, focused products, ensuring our clients are in compliance with regulatory heritage requirements and legislation while managing project needs and timelines. These services may be integrated with other environmental, economic and social impact studies, or as stand-alone investigations.

Our Services Include:

- Heritage Resource Impact Assessment (HRIA) – Stage 1 through 4
- Heritage Resource Impact Monitoring (HRIM)
- Historical Resource Overviews (Desktop studies)
- Cultural and Heritage Protection Planning
- Traditional Knowledge & Land Use Studies
- Geographic Information System (GIS) Mapping Technology
- Archaeological Educational Programming & Training
- Modelling & Constraints Mapping

PEMBINA PALEONTOLOGY

Box 47

Pilot Mound, Manitoba

R0G 1P0

Contact:

Name – Joseph & Anita-Maria Hatcher

Title – Vertebrate Paleontologists

Phone : (431) 773-8881

Email : pembinapaleo@gmail.com

Website : www.pembinapaleo.com

Facebook: www.facebook.com/PembinaPaleo

Pembina Paleontology was established in 2021 by Manitoba's most published vertebrate paleontologists, Joseph and Anita-Maria Hatcher to ensure Manitoba's paleontological record is preserved for future generations through research, conservation and education. In addition to public fossil digs and virtual educational programming, some of the consulting services that we offer include:

Paleontological Impact Assessments

Through the Manitoba Heritage Act of 1987, most earthworks that are planned in Manitoba near established vertebrate fossil bearing horizons will require a paleontological impact assessment. With over 30 years of combined professional paleontology experience, our team is uniquely suited to acquire the proper heritage permits, provide fossil resource management plans, impact evaluations and mitigation plans, construction monitoring and data capture, stratigraphy, and fossil preparation.

Film Advisory Consultation

We offer a variety of paleontology services for the film and gaming industry. From our expertise in dinosaur and marine reptile paleontology, your creative team will flourish with authenticity in their designs! From pre-production concepts to on-set guidance and post-production follow through, your next dinosaur film will roar to the front of the line! Whether you're writing the script or in charge of art, design or animal animation in gaming entertainment, our vertebrate paleontologists are available for hire as science consultants. Let our expertise lend to your vision a unique sense of authenticity. Our scientists work *with* you to blend scientific accuracy with in-game or movie magic so that your work shines like a Hollywood star! Contact us about your customized project.

Museums, Zoos & Aquariums

Is your institution planning a new dinosaur exhibit, or that truly unique aquarium theme that represents the Cretaceous Seas of Manitoba? Consult with the professionals and bring scientific accuracy to your concepts and elevate them to world-class innovations!

Respect forms the basis of all great relationships. Our primary guiding principle, at RESPECT HERITAGE CONSULTING we build respect into everything we do. Respect for the history of the land and its people; Respect for team members; and Respect for you, the client. You can choose our firm with confidence we will invest in a mutually beneficial, long-term relationship with you, your company and your community.

Alan Korejbo is RESPECT HERITAGE CONSULTING's founding archaeologist. His over 20 years of archaeological experience has included working with some of the largest environmental firms in Canada. Alan's considerable knowledge of heritage legislation and regulatory process ensures regulatory compliance for your project that is *on time, and on budget*.

RESPECT HERITAGE CONSULTING provides you with proven experience and cost-effective services. Alan and his knowledgeable team deliver effective heritage resource management for your project.

Heritage, Archaeology, and Community Services:

- Heritage Resource Impact Assessments (HRIA)
 - Including pre-impact, post-impact, monitoring, and mitigation
 - Identification of human and faunal remains, ethnobotanical analysis, archival research, GIS mapping services, and DStretch photography analysis
- Heritage Resource Overview (desktop heritage screening)
- Project referrals and submissions
- Traditional Land Use Studies (TLU)
- Indigenous collaboration
- Community engagement
- Public outreach and education

Stantec Consulting Ltd. provides a full range of heritage resource impact assessment and cultural management services. Through our experienced staff, we are able to integrate archaeological, historical and oral history investigations into comprehensive environmental assessment studies, heritage resource impact assessments, heritage resource management strategies, assistance with land claim entitlements and heritage resource surveys to record land use activities on private, public and traditional lands from the recent to the ancient past.

Our staff has the background skills in archaeological site survey, site excavation, interpretation and reporting, geophysical studies, GIS mapping, extant building recording, heritage displays and cultural resource management strategies. Stantec also offers laser imaging, high resolution historical air photo analysis (to map now extinct sites), cemetery rehabilitation, mapping and unmarked grave location and artefact conservation.

Stantec has developed a Traditional Land Use and Traditional Ecological Knowledge group who have completed a number of studies across Canada for various environmental assessment projects. These projects have involved Stantec staff completing the studies through assistance with the First Nation communities or facilitating independent community studies.

Western Heritage is a multi-provincial firm that has been providing archaeological and other heritage services since 1990. Our Winnipeg office, formerly Quaternary Consultants, has extensive experience in working throughout Manitoba. The scale of projects has ranged from small survey projects to large scale excavation projects.

Archaeological services include heritage overviews, compliance-based heritage overviews, archaeological assessment and excavation projects. We have worked across the province from the US border, to as far north as Churchill. We regularly work with First Nations' and Métis communities and community monitors. We have provided training for indigenous archaeology teams.

Our technical services include satellite-based remote sensing, digital landscape mapping (GIS) and specialized archaeological and land management software development. Our specialized services include heritage potential modeling, archaeological magnetic, radar, and resistivity surveys, detailed soil studies and POSL dating. Western Heritage has nearly 20 years of experience in mapping cemeteries with GPR.

In addition to archaeology, we provide services in the area of indigenous consultation and engagement, traditional land use and traditional environmental knowledge studies and archival research.

All Manitoba employees are covered by comprehensive professional liability and WCB insurance. Western Heritage has an Energy Safety Canada COR.

[Information for Landowners](#)

[Information for Resource Developers](#)

[Information for Engineering Firms](#)

[Information for First Nation Communities](#)

White Spruce Archaeology Inc. (WSA) is the oldest heritage firm in Manitoba and will provide expert support for the project's archaeological assessments. WSA archaeologists are qualified and licensed to conduct heritage work in Manitoba and Ontario.

The work conducted by WSA includes Heritage Resource Impact Assessments (HRIA), Traditional Land Use (TLU) and occupancy studies, archaeological survey and assessments related to sustainable development. WSA has undertaken archaeological and heritage studies for a variety of local government agencies, engineering firms, resource extraction developments and homeowners. We take pride in our commitment to working with local First Nations communities and maintain a policy of training and employing First Nations people within whose traditional territory we work for positions as field assistants.

Archaeological assessments, including HRIA typically include background research (archaeological inventory, review of historical literature, review of geology and the natural environment), TLU data collection and analysis, field research, and reporting according to provincial guidelines and regulations. When initiating an archaeological assessment, WSA will first apply for a heritage permit and begin discussions with First Nation communities, if needed. Once the heritage permit is received, WSA acquires archaeological site information for the study area and begins to review the geographic, land use, and historical information. Current literature about the area is reviewed and existing conditions in the study area are examined to assist in the identification of areas heritage potential and devise an informed strategy about which surface and subsurface survey methods would be used. WSA has experience, expertise and technology to manage, analyze and store the land and archaeological databases using geographic information systems platform.

Based on preliminary information gathering and fieldwork, when required, WSA reviews and summarizes what is known about the archaeology, history and prehistory of the study area and proposes recommendations to either clear the area of archaeological concern, or if this is not possible, WSA will work with the proponent to develop a strategy for long-term protection of impacted archaeological sites. If protection of archaeological resources is not a viable option due to project design, WSA would conduct an archaeological excavation to document and recover artifacts prior to construction. WSA adheres to provincial guidelines regarding the excavation and processing of artifacts.

WSP offers a complete range of archaeological assessment and heritage conservation services to clients across both public and private sectors and for all levels of local, provincial, and federal governments. Our services encompass all aspects of heritage assessment with a focus on identification and management of heritage resources, including protection plans that outline both avoidance and mitigative strategies. In Canada, our experienced team of experts help clients work to minimize their project's impact on heritage resources in a way that is the least detrimental to their project's timeline and objective while still meeting regulatory requirements.

No project is too small or too complex. Our team has conducted hundreds of heritage programs and archaeological assessments to date, for clients in the following sectors: commercial, communication & technology, energy and natural resources, government, industrial, rail, residential, retail, roads and bridges, urban regeneration and water and waste.

Our areas of expertise include:

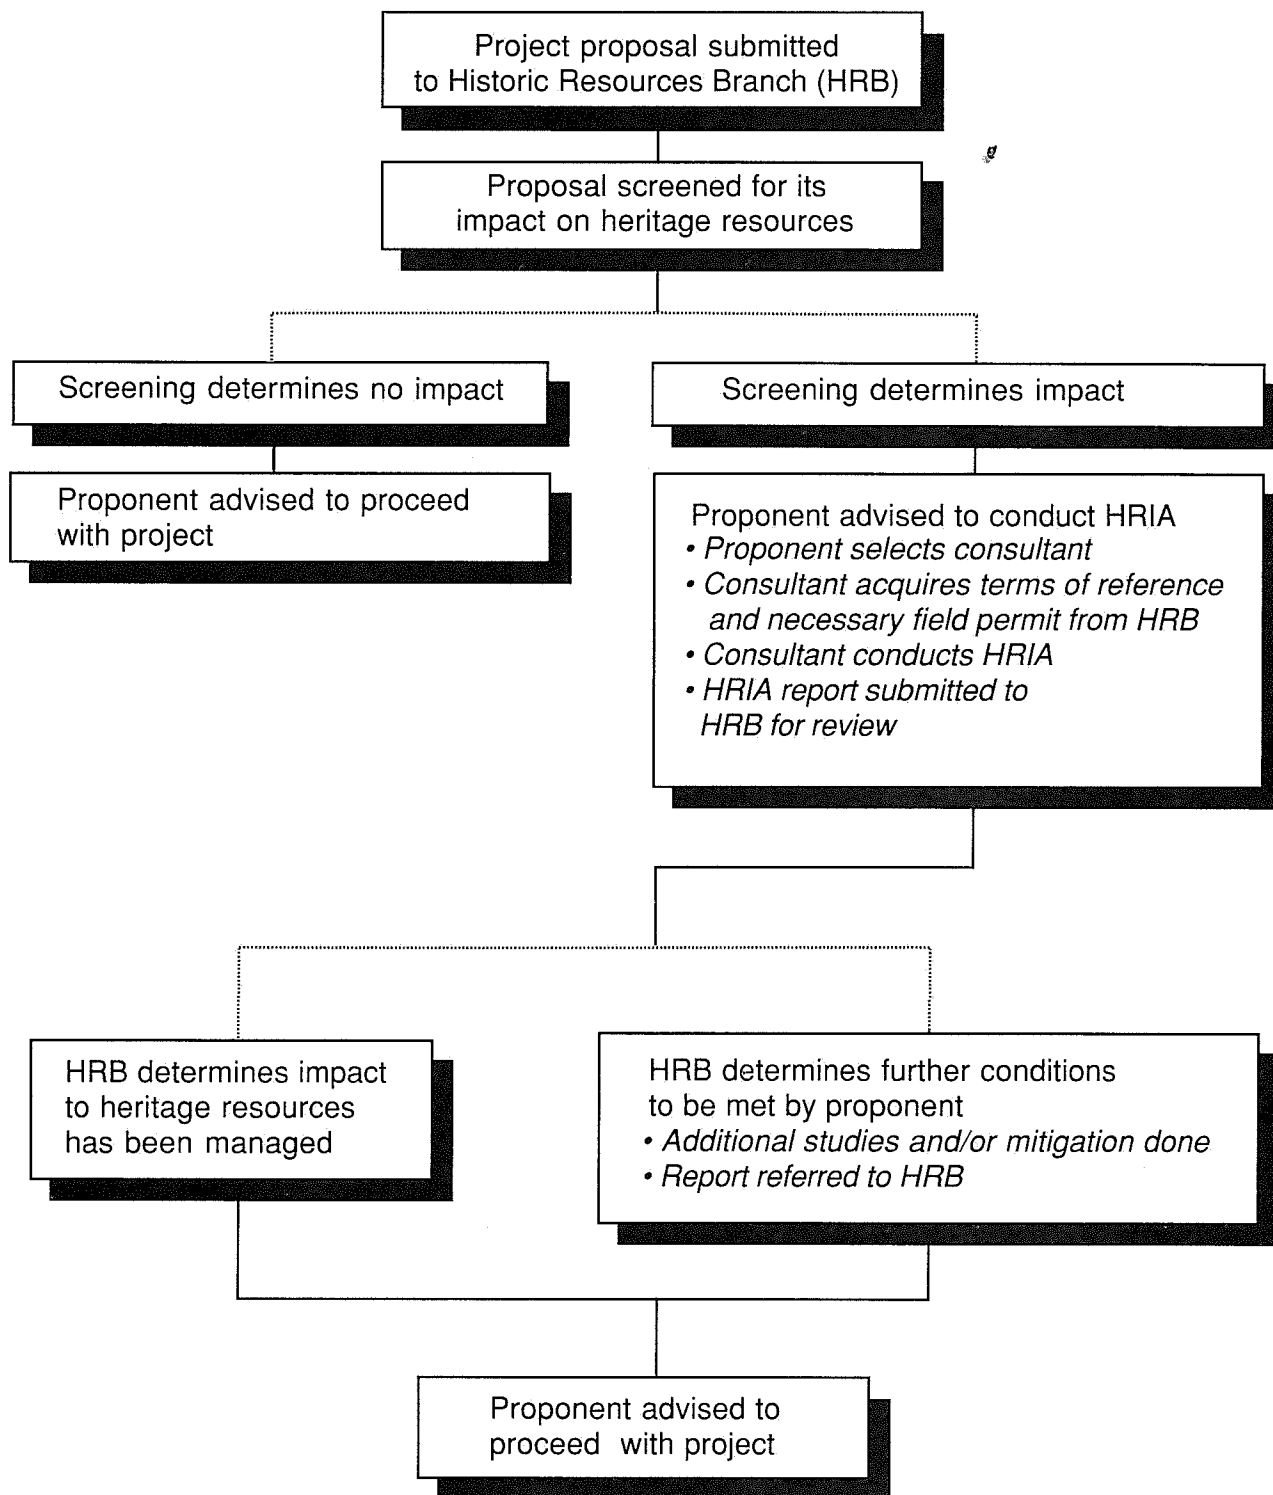

- Desktop heritage sensitivities review and analysis
- Heritage baseline inventories
- Pre-construction heritage surveys
- Heritage construction monitoring
- Post-construction heritage impact studies
- Public engagement
- First Nations and Métis consultation
- Community engagement
- Indigenous relations

Our Core Services:

- Heritage Resource Impact Assessments (HRIA)
- Heritage resource overview studies
- Heritage resource desktop screening analysis
- Heritage resource mitigation studies
- Monitoring of heritage resources during project implementation
- Post-impact heritage studies
- Heritage resource protection plan development
- Heritage conservation studies and planning
- Geomatics and Geospatial Analysis
- Built heritage assessments
- Cultural heritage landscape analysis, evaluation, design, and restoration

The Manitoba Hydro-Electric Board – Centra Gas Manitoba Inc.

RE: Application(s) **By-law 4423 (RM of St. Andrews)**

Please be advised of the following Manitoba Hydro/Centra Gas conditions on file :

1. Manitoba Hydro and Centra Gas Manitoba Inc. have no concerns with the Zoning By-Law amendment.
2. If this application is revised at any time, it will be necessary for Manitoba Hydro/Centra Gas Manitoba Inc. to review the file to determine if our concerns remain the same.
3. If there are existing Manitoba Hydro and/or Centra Gas easements on the titles, any building and/or construction affecting our easements will require approval prior to work beginning and can be applied for through SecondaryLandUse@hydro.mb.ca.
4. Visit Click Before You Dig <http://clickbeforeyoudigmb.com/> in advance of any excavating.
5. Any removal or relocation of Manitoba Hydro and/or Centra Gas Manitoba Inc. existing facilities as a result of the proposed will be at the expense of the developer and/or customer.
6. Future electrical and or gas service can be obtained by submitting the online form on the [Manitoba Hydro](#) website.

Any inquiries can be sent to HCSC@hydro.mb.ca.

Subject: RM of St. Andrews ZBA BL 4423

Good day to all,

On October 14th, 2025, the RM of St. Andrews Council gave First Reading to Zoning By-law Amendment BL 4423, 2025.

This Zoning By-law Amendment proposes to amend the RM of St. Andrews Zoning By-law No. BL 4066 by rezoning the subject property from “RR” *Rural Residential* to “RA” *Suburban Residential Zone* to subdivide the land into total 21 lots for the future single family residential development and sale properties.

Attached to this email is a copy of the First Reading Report, First Reading Council resolution, and the Zoning By-law Amendment By-law.

A Public Hearing with the municipal Council is tentatively planned for **December 9th, 2025, at 5:30 PM** (see Public Hearing Notice attached).

Should you have any comments regarding this Zoning By-law Amendment, please reply to this email and CC selkirkCRP@gov.mb.ca by **November 17th, 2025**. No response by this date will be interpreted as your office having no concerns with this application. Please circulate to anyone in your office that may have comments regarding this file.

If you require any additional information, please feel free to contact me. Thank you.

Have a great day,

Valentina Esman
